

The Natural Solution for Joint Health

- Mobility, flexibility & joint comfort
- Devil's Claw extracts
- Natural botanical origin

Mobility, flexibility & joint comfort

KNEE, HIP AND BACK

Harpagophytum procumbens D. and *Harpagophytum zeyheri* Decne also called Devil's claw, are traditionally used to maintain joint health. This ingredient, coming from a root growing only in the South of Africa, is the natural solution to improve joint health.

Sustainable Sourcing:

- Long-term supply chain partnership
- Local involvement:
 - Farmers training
 - Education
 - Fair income, annual contracts

Gentle Process:

- Water extraction
- Concentration with physical process

All-natural Product:

- 100% Devil's Claw: carrier-free
- Organic grade & Kosher certified
- Suitable for vegetarian & vegan

Devil's Claw can be used in association with other botanicals or specialty ingredients (such as turmeric or nettle).
