

Liposovit[®]-C

DIRECT

Granulated liposomal vitamin C

Continuing the innovative technology of enclosing the active ingredients in nano-lipid molecules, we created a granulated form of liposomal vitamin C under Liposovit[®]-C DIRECT brand, dedicated to be used in fast dissolving products or for direct consumption. The unique liposomal form of vitamin C helps bypass the digestive barriers of the body and goes directly to the body's cells without irritating the digestive tract. Additionally, Liposovit[®]-C DIRECT is characterized by increased bioavailability compare to standard vitamin C, which effectively supports our immune system.

Advantages of Liposovit[®]-C DIRECT

- easier and faster dissolution,
- increased flowability,
- reduced dusting of the product,
- convenient dosing,
- lower hygroscopicity.

Applications

- fast dissolving sachets,
- direct consumption,
- effervescent tablett.
